

MANOJ KUMAR

Full Stack Developer | React · Node.js · MongoDB · Express.js

Coimbatore, Tamil Nadu | +91 93618 81941 | Manojkumar.dev001@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on production experience building and scaling a live e-commerce platform at a product startup. Proficient in React, Node.js, Express.js, and MongoDB. Delivered secure JWT authentication, role-based access control (RBAC), and responsive UI components used by real users in production. Proven ability to reduce performance bottlenecks, own end-to-end features, and collaborate effectively in agile startup environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Native, Tailwind CSS, Redux

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control (RBAC)

Database: MongoDB, Firebase, SQLite, SQL (basic)

Tools & Platforms: Git, GitHub, Postman, VS Code, Tauri, Agile/Scrum

WORK EXPERIENCE

Full Stack Developer | Seelan Graphics Pvt Ltd, Coimbatore

Nov 2024 – Present

- Architected and implemented a JWT-based authentication system with 3-tier role-based access control (RBAC) — admin, seller, and buyer roles — securing 10+ API routes on a live production platform.
- Improved application performance by refactoring the React component tree and implementing lazy loading, reducing page load time by ~35% on the production e-commerce platform.
- Built 15+ reusable, responsive UI components using Tailwind CSS with full cross-device compatibility (mobile and desktop); zero layout bugs reported post-deployment.
- Designed and maintained RESTful APIs using Node.js and Express.js integrated with MongoDB, supporting real active users with reliable uptime.
- Contributed across the full SDLC in a 4-person agile startup team — sprint planning, code reviews, and production deployments in direct collaboration with founders.

MERN Full Stack Developer (Training) | Edureka Learning Center

Feb 2024 – Sep 2024

- Developed multiple full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js) with REST API integration and complete CRUD operations.
- Gained hands-on experience with front-end state management, API authentication, and database design through project-based learning.

PROJECTS

Desktop CRM Application | React, Tauri, Node.js, Express.js, SQLite

Built a cross-platform desktop CRM featuring role-based dashboards, user management, and workflow automation using Tauri framework — achieving ~60% smaller bundle size compared to Electron-based solutions.

Food Delivery Web Application | React, Node.js, Express.js, MongoDB

Developed a full-stack food ordering platform with menu listing, cart management, order tracking, and RESTful APIs. Fully mobile-responsive UI with real-time order status updates.

E-Commerce Mobile Application | React Native, Node.js, REST APIs

Built an Android-optimised mobile e-commerce app featuring product listings, search functionality, and API-driven dynamic data with smooth native performance.

EDUCATION

Bachelor of Business Administration — Computer Applications

2020 – 2023

Park's Arts and Science College, Tirupur
